

# Take me Home Country Roads

## John Denver

**G**            •            **Em**                            •  
Almost heaven,            West Virginia  
**D**                            •                            **C**                            **G**                            •  
Blue Ridge Mountains, Shenandoah River  
**G**                            •                            **Em**                            •  
Life is old there, older than the trees  
**D**                            •                            **C**                            **G**  
Younger than the mountains, blowing like a breeze

### CHORUS:

**G**            •                            **D**                            •  
Country roads,            take me home  
**Em**            •                            **C**                            •  
To the place,            I belong  
**G**            •                            **D**                            •  
West Virginia,            mountain mama  
**C**            •                            **G**                            •  
Take me home,            country roads

**G**            •                            **Em**                            •  
All my mem'ries,            gather 'round her  
**D**                            •                            **C**                            **G**                            •  
Miner's lady, stranger to blue water  
**G**                            •                            **Em**                            •  
Dark and dusty, painted on the sky  
**D**                            •                            **C**                            **G**  
Misty taste of moonshine,            teardrops in my eyes

### CHORUS

**Em**                            **D**                            **G**                            •  
I hear her voice, in the mornin' hours she calls me  
**C**            **G**                            **D**                            •  
The radio reminds me of my home far a-way  
**Em**                            **F**                            **C**                            **G**  
And drivin' down the road I get a feeling that I should have been home  
**D**                            •                            **D7**                            •  
yesterday,            yesterday

### CHORUS
